# DEEP CREEK IS SURE OF ROAD

Surveyors Are Now Running Line for Branch From Western Pacific.

BUTLER-LIBERAL'S STRIKE

TWO FEET OF GALENA OPENED IN NEW GROUND.

Zera Castle, a millionaire mining operator of Illinois, who knows the camps of this western country like he knows his alphabet, came in from a trip to the coast Wednesday and left camps of this western country like he knows his alphabet, came in from a trip to the coast Wednesday and left for home last night. He said yesterday that there was no longer a doubt that the Western Pacific Intended to build into the Deep Creek country this year. He was told in San Francisco by Chief Enginer H. McCarthy that surveyors had been instructed to run a line from the nearest and most feasible point on the company's main highway to Clifton, and he presumed the work was already under way. This statement has been verified within the last day or two by the report brought in by Frank St. Jear from St. John, Tooele county, to the effect that a corps of surveyors were in the field doing that work several days ago.

Mr. Castle has been interested in the

Mr. Castle has been interested in the Deep Creek country for several years with F. W. Gardner, J. M. Garrison and others in the Garrison and Monster and others in the Garrison and Monster Mining companies. During his stay in the city the directors met and planned he work to be carried on this season, which is said to include the driving of one new tunnel and many hundreds of of feet of other development work. This preparation for an active campaign is due largely to the fact that Mr. Castle had positive assurance before coming here that the Western Pacific would give the country the aid it cific would give the country the aid it ing ore

The Western Pacific expects to have its line completed from this city to the Nevada state line by Sept. 1, and the branch which is to be run down to

according to the point on the main line from which it is decided to build. Just over the Nevada line the company has to run a long tunnel and this, it is said, will delay construction west from Utah considerably and give plenty of opportunity for building the branch south on this side of Dutch mountain.

Ed. Austin is in from the Dolly Varden district, just beyond Deep Creek on the Nevada side of the line. He has just given a thirty-day option on five claims in the district to a Southern Pacific railway crowd. This is a portion of the same ground that Frank L. Sizer took a whack at a few years ago and which he surrendered after doing considerable work because the owners would not agree to an extension of time unless the price was doubled. The Southern Pacific bunch got their unless the price was doubled. The Southern Pacific bunch got their

group of five claims in the Clifton district has been bonded to an eastern combination at a good figure. Ore has been taken from this group of the week from the Tintic mining district were as follows: been taken from this property that has assayed as high as \$12,000 per ton it gold, and the opinion is expressed tha the ground is going to develop into

Report also has it that the Gold Hill property, being operated by Captain Duncan MacVichie and associates, is also turning out well and the work be ing done in other portions of the country is all of a nature calculated to sup ply business to the road, once it is con structed. Dozens of properties are not ready to be equipped with machinery and this will be done during next fal and winter if the line is finished, as Victoria ....

## BUTLER-LIBERAL STRIKE.

## Two Feet of Galena Is Reported Tapped in Western Portion.

An important strike is understood to have been made in the property of the Butler-Liberal company at Bingham during the last day or two, but it was impossible to find Manager Walter C. Orem last evening and get a verilica-tion. The report, which came from a reliable source, was to the effect that two feet of solid galena ore had been encountered in the western portion of the property and presumably on the

carried with it a conviction that some- morning. carried with it a conviction that something must be up at the mine, though Manager Orem stated within a week that there had been nothing in the way of development then to justify the jump in the stock. A week is a long time, however, when workings are near ore, and there seems every reason to believe that the strike, as stated, has been the properties at Park City, is down from the public benefit is politically to the public benefit is that the strike, as stated, has been

The lower tunnel is also being crowded out in the direction of known ore bodies in Leona ground, and while there is several hundred feet of work yet to do before they are reached, or rather before the country is reached in which they are expected to be found, there is

partnership on a grub-stake agreement.
He gave Engenes a fine outfit, but the latter declined to say where the ground was, explaining that he had not taken out his naturalization papers and the out his naturalization papers and that he had, therefore, not located the ground. He also expressed fear to his friends that he would be swindled. He was then arrested and thrown into fall on the charge mentioned and held there

It is now reported that he has been honorably discharged by the grand jury, that he has secured his "first papers" and that he has gone into the diggings to locate his find. During the last two months hundreds of men tried to locate the spot but, so far as heard from, they all failed. The district is a rich one, the ore exhibited by Engenes was described as being half gold and, if he shows later that he has the real thing, excitement in the Bullion courtry will be intense.

#### PEERY-McCORNICK PURCHASES.

### Stray Dog and Other Manhattan Property to Be Consolidated.

(Special to The Herald.)

Mayllower and Indian Camp will be consolidated into one company.

This is the most important transaction that has taken place in Manhattan properties, and the price paid in cash speaks yelumes for the development and permanents.

#### SCHWAB GETS THE LOOKOUT.

## Metal Markets.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$50,000, as follows: Silver, lead, gold and copper ores, \$25,000; base bullion, \$25,000.

# Ore and Bullion.

Silver, 64%c per ounce. Copper (casting), 18c per pound. Lead, \$5.35 per 100 pounds.

## Mining Notes.

L. S. Cates, mine manager of the Boston Consolidated, is reported at Stockton sizing up the Honerine mine for Peter Haack.

lower tunnel level.

The rapid advance of the company's stock from 14c to 25c per share has Taylor & Brunton sampler yesterday

O. E. Lawrence, manager of the Jupi-ter properties at Park City, is down from camp for a day or two settling for the last car of ore shipped from the mine.

the Starless property, Bingham, by Colonel E. A. Wall during the next few weeks, preliminary to the inauguration of a more extensive plan of development.

# CHANGES PLANS

American Company to Select New Site for Contemplated Works on the Coast.

### **FUME NUISANCE DISCUSSED**

FARMERS LOST OUT IN CALIFORNIA.

It is fairly certain now that the Guggenheim interests, otherwise known as the American Smelters Securities corporation, will build a large copper smelter in the vicinity of San Francisco, says the Mining and Sci

Southern Pacific railway, of the Oregon and Northern California branch and, latterly, of the Santa Fe May Day .

railroad. But the farmers have a habit of getting busy with damage suits in that part of the country and poor looking horses are found to increase in value when they eat smelter fume, so that such practices have become some to the smelter managers and this S. Swansea important industry now fights shy of U. S. Ming. important industry now fights shy of Port Costa, Benicia or Martinez.

#### San Bruno Selected.

It is understood that the new plant, large copper smelter that will supplement the Selby lead reduction works, will be erected on the southwest shore of the bay, at Point San Bruno, in San Mateo county, about six rendered harmless to even the most R. & Ana

Speaking of smelter fume, we note that the United States circuit court of appeals has reversed the decision whereby an injunction was granted Mont.-Tono Magnements.

was contrary to public good to stop the operations of a large industrial establishment in the interest of the establishment in the interest of the owner of 4,000 acres of grantice territory, worthless for agriculture, and already deforested. Judge Hawley, the already deforested the dictum that New York, 1,300@19c. "the innocent are not to suffer either in their property or comfort for the promotion of another's interest or profit." And this idea is undoubtedly at the base of all blackmailing suits brought against the smelters. They are always willing to buy land or compensate the owners of it when such land comes within a radius of their smoke nuisance, but they are net allowed to treat such cases equitably; on the contrary, they are put in the position of enemies of the public good.
We regard the smelters as representing a beneficent industry, the well-being of which is essential to profitable mining; and in taking this view of them we disregard the financial schemes involved in their organization and the speculative share market which some of them afford.

As the promotions of clever financiers they do not interest us, they are able to take care of themselves, but as an integral part of the vast operations by which the mineral resources of the country are exploited, it does appear to us that they should not be hunted from pillar to post by blackmailing and a smelterman a criminal.

and a smelterman a criminal.

Greatest Good to Greatest Number.

The greatest good of the greater number is the aim of intelligent government; a right of way for a railroad can be obtained through another's land

told to be reasonable, and, eventually, compelled to take fair compensation.

George L. Moats, manager of the Ohio Lead company's properties at Sprucemont, Nev., came in from camp last evening after a stay at the mine of several months.

A compressor plant is to be placed at the Starless property, Bingham, by Colonel E. A. Wall during the next few weeks, preliminary to the inauguration of a more extensive plan of development.

told to be reasonable, and, eventually, compelled to take fair compensation.

Fair compensation the smelters have always been willing to offer, unending blackmail they have fought. It would be to the injury of our community and of the state of California if the idea should prevail that a people whose existence was founded on mining has made up its mind to treat all smelting works as a public menace.

Columbus Consolidated Rallies From Trading Did Not Extend Beyond the In a market otherwise dull and uninteresting, Columbus Consolidated rallied sharply from the set-back given it by the bears on Thursday during the open board sessions of the mining exchange. The stock has been hovering around the \$6.50 mark, during Thursday's afternoon call, it was quickly knocked to \$6 flat. Yesterday the first cash sale was made at \$6.10 and, with nearly 4,000 shares changing hands, it was advanced steadily to Professional Limits Marking

## FIRMNESS OF CALL MONEY

SLIGHT ADVANCE IN INTEREST RATES.

New York, March 16.-The stock market showed no marks of extension beyond the professional limits which have bounded it all this week. The volume of trading was about the same as yesterday, but was very largely congested in U the first hour, showing the continued effect of the weakness of special stocks which developed yesterday. Some sympathetic effect upon the general list was shown while this further weakness was manifested, but prices were disposed to recover and did so when the weak stocks rallied.

# GRAIN AND PROVISIONS.

Chicago, March 16.—The greatest strength in the wheat market was shown during the first hour, when prices advanced 1 above yesterday's closing quotations. Liverpool came higher and there were reports of heavy shipments of flour from New York. An excellent demand for cash wheat was reported at all the leading grain centers of the United States, the market, however, losing much of its firmness near the middle of the

day, because of profit taking by local holders. During the latter part of the season the market was steady. May opened %@\cdot\ to \%@\cdot\ cent higher, at 78\cdot\ advanced to 78\cdot\ affect{20\cdot\ cent higher, at 78\cdot\ and closed \cdot\ cent higher, at 78\cdot\ and closed \cdot\ cent higher, at 78\cdot\ corn was firm for the greater part of the day. Shorts who were influenced by the upturn in wheat, covered freely. May closed steady, \(\cdot\ cent higher, at 43\cdot\ atter.\)
Oats were firm early, but weakened later. May closed \(\cdot\ cent lower at 29\cdot\ atter.\) @29%.
The provision market was firm all day.
At the close May pork was up 10 cents,
and lard and ribs each 21/205 cents higher.
The leading furures ranged as follows: WHEAT-No. 2: CORN-No. 2: Open. | High. | Low. | Close. . 43%@441% 441% ... 43%@441% 441% ... 443% 441% Open. | High. | Low. | Close.
